Allowable Subject Matter

1. Claims 1-16, 19, and 20 are allowed.
2. The following is an examiner's statement of reasons for allowance: In the response filed 1/9/2004, applicant canceled claims 17 and 18 and incorporated their subject matter into claims 1 and 9 respectively. Claims 17 and 18 were only objected to in the previous office action and would have been allowable if rewritten in independent form, thus, in light of the amendment, the rejections made in the previous office action have been dropped as the claims all depend from either claim 1 or claim 9 which now contain allowable subject matter. The examiner has performed an updated search of the prior art of record and has considered the references listed on the PTO-1449 submitted along with the after final response, but no new relevant references were found. Therefore the present claims 1-16, 19, and 20 are now allowable over the prior art of record as the prior art of record fails to teach or suggest to one of ordinary skill in the art to prepare a material as described by the instant claims 1 or 9 wherein the infrared laser exposure is performed at a plate surface energy of 80 mJ/cm^2 or greater. The prior art of record teaches to employ a laser having a much lower energy ($60\text{-}198 \text{ }\mu\text{J/m}^2$).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
